

**BACHELOR DEGREE**

# MARITIME STUDIES

SAFETY MANAGEMENT

**ONLINE (SELECT COURSES ON CAMPUS)**

## PROGRAM DESCRIPTION

The Bachelor of Maritime Studies (Safety Management) provides you with the essential skills to lead and contribute to the evolution of a safety culture for a variety of organizations that operate within the global maritime sector.

With a focus on safety and preventative measures, this degree option will prepare you to address increasing concerns in the oceans and hazardous environments-related sectors, including the offshore oil and gas, shipping, maritime security, and fishing industries. You'll study how to manage maritime health and safety, environment, security, and quality issues.

The Bachelor of Maritime Studies (Safety Management) is offered online, allowing students to pursue their studies from anywhere in the world.

Students will enhance their career opportunities by gaining knowledge and leadership skills to implement, maintain, and promote safety, environment, and quality management systems.

## ADMISSION REQUIREMENTS

Applicants must meet the regular admission requirements of Memorial University and be eligible for admission to the Bachelor of Maritime Studies - Major in Safety Management program in one of the following categories:

**Category A:** Applicants holding a diploma from the Marine Institute in nautical science, marine engineering technology, naval architecture technology, marine engineering systems design technology, marine environmental technology, or food technology

**Category B:** Applicants holding a diploma of technology in engineering/applied science technology accredited by the Canadian Technology Accreditation Board (CTAB), or Technology Accreditation Canada (TAC);

**Category C:** Applicants holding a diploma of technology comparable to a Marine Institute or College of the North Atlantic three-year accredited diploma;

**Category D:** Applicants who have Canadian Forces training acceptable to the Admissions Committee;

**Category E:** Applicants who hold a Canadian Registered Safety Professional (CRSP) designation.
